## Profile

As a specialist lawyer for IT law, Sina Bader is part of the IT/IP/Data protection team of the law firm dhk. In addition to her special expertise in IT and data protection law, which has been confirmed by the Cologne Bar Association, her other main area of practice is intellectual property law. She also specialises in advising start-ups, as well as providing pre-litigation and litigation services in the areas of telecommunications law, competition law and trademark law.

She is particularly interested in new and modern technologies and therefore currently has a special advisory focus on blockchain technology, NFTs and Web3.

## Skills

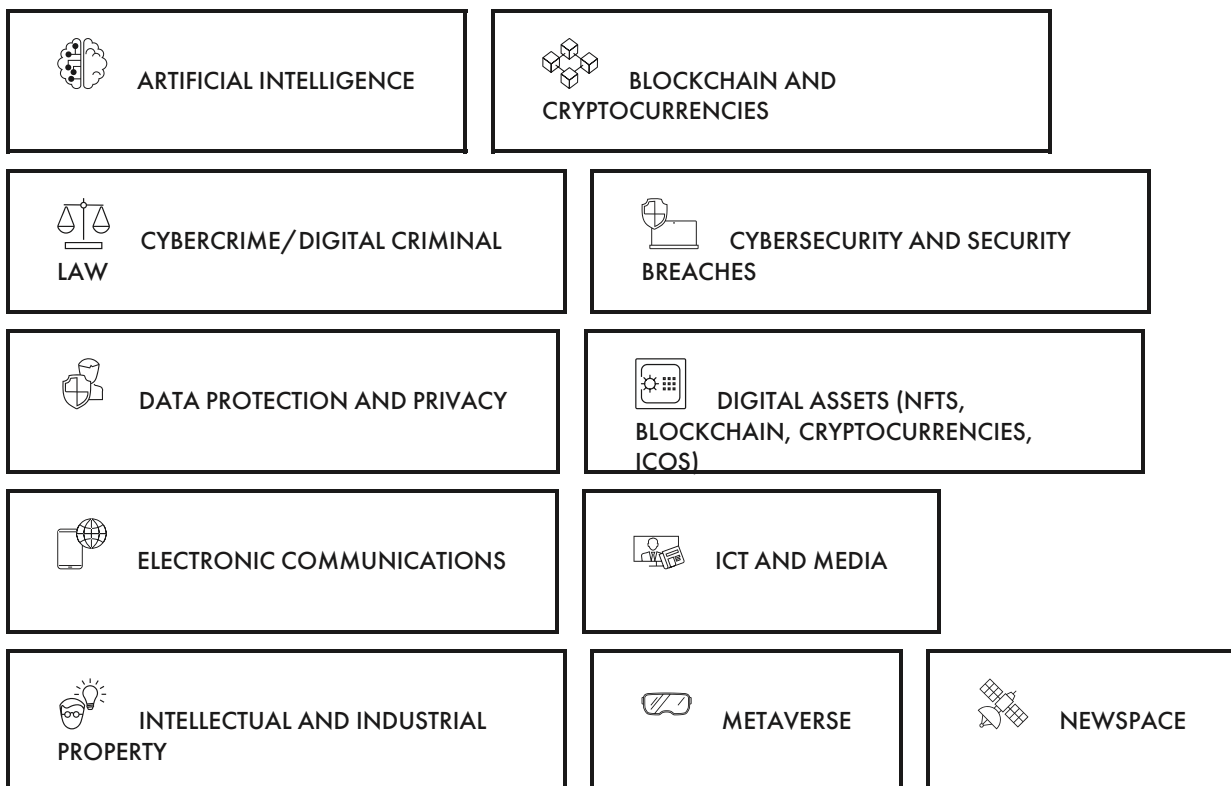

Sina Bader supports companies in the implementation and development of their strategies and ideas as well as in the enforcement of their claims. Her practice includes:

- Auditing compliance with contracts;
- Drafting, preparing and negotiating comprehensive contracts to provide the client with the best possible protection;
- Providing detailed advice on the realization and implementation of data protection requirements in organizations;
- Advising on the possible and legally secure implementation of new technologies in the company.

## Professional experience

- Legal Advisor Data protection; Money laundering prevention; Compliance, Integrity GmbH
- General Counsel (external), Peakwork GmbH, Düsseldorf
- Legal Advisor & Social Media Consultant, Strength & Conditioning
