Profil

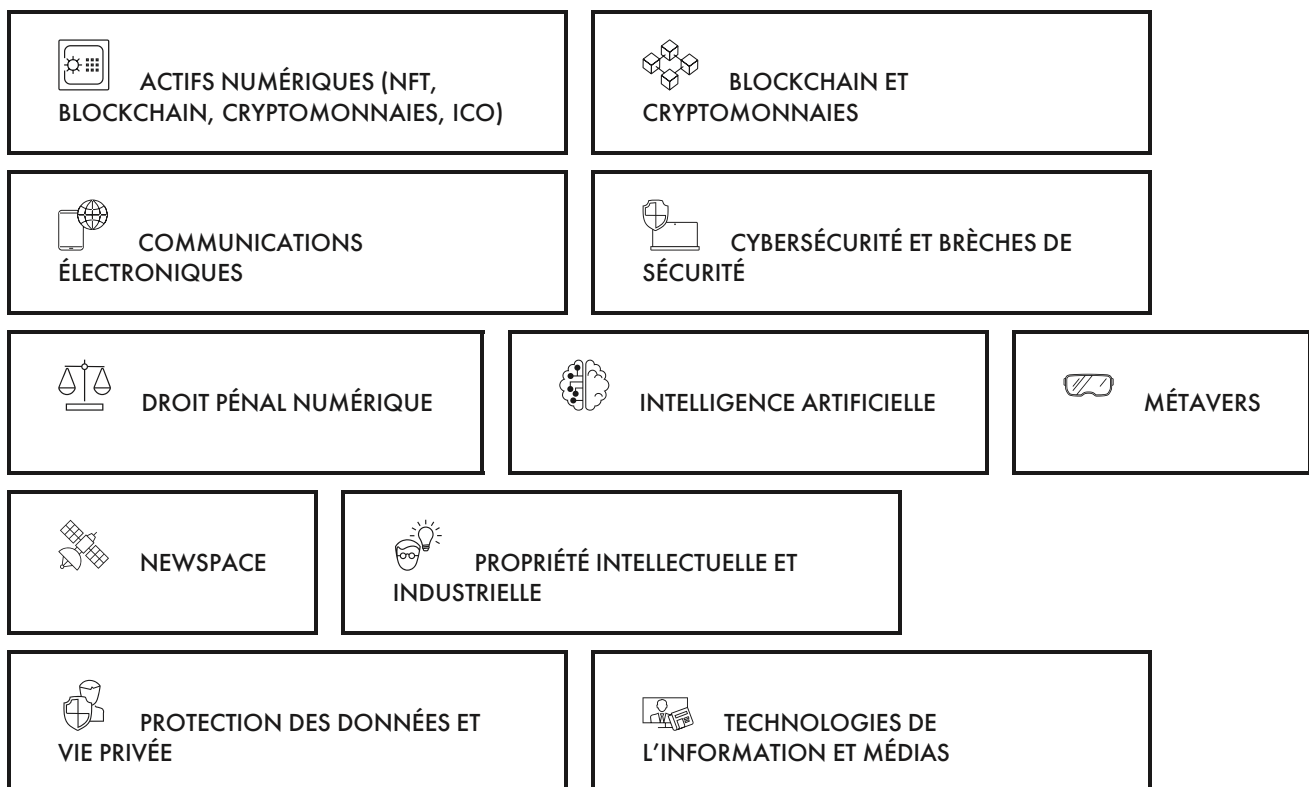

Nikolaos Papadopoulos is an Associate at Ballas Pelecanos Law and a member of the IP, IT & CT Practice Group. He specializes in offering legal counsel to leading international and domestic clients. His expertise covers extensive areas at the intersection between law and technology, including data protection, new technologies, AI, telecommunications, and intellectual property in the digital environment.

Skills

Nikolaos offers customized solutions to clients across a range of industries. His services encompass:

- supporting compliance with privacy and data protection regulations
- providing DPO services and legal assistance to DPOs;
- advising on legal issues of intellectual property in the digital environment;
- providing guidance on blockchain, smart contracts, NFTs, and cryptocurrencies;
- drafting and negotiating contracts;
- providing advice on complex telecommunication projects;
- representing clients and offering support before regulatory entities such as the Hellenic Data Protection Authority (HDPa).

Expertises

Diplômes et titres académiques

- Leiden University, Faculty of Law (Advanced LL.M. in Law and Digital Technologies)
- Democritus University of Thrace, Faculty of Law (LL.B.)
